

SECTION 1 : CHEMICAL PRODUCT AND COMPANY INFORMATION

SYNONYMS: Polyalkylene Glycol
PROPER SHIPPING NAME: Polyether Polyol
CAS NUMBER: 9003-11-6
UN NUMBER: Not Regulated
PRODUCT USE: Aid in the control and prevention of bloat in cattle

SUPPLIER: CP Solutions LP, 63b Allens Road, East Tamaki, 2013,
Auckland Telephone: +64 9 271 5290

24 H Emergency Contact: 0800 243 622 (24 Hours)
Website: www.agmax.co.nz
Email: info@agmax.co.nz

SECTION 2 : HAZARDS IDENTIFICATION**STATEMENT OF HAZARDOUS NATURE**

New Zealand Hazardous Substances Classification: Not classified as hazardous according to the criteria in the New Zealand Hazardous Substances (Hazard Classification) Notice 2020

Label elements**Hazard statements****Other hazards which do not result in classification**

Slipping hazard

SECTION 3 : COMPOSITION

Appearance: Deep Blue Liquid

Ingredient	CAS Number	Proportion
Copolymer of ethylene oxide and propylene oxide	9003-11-6	>80%
Brilliant Blue FCF	3844-45-9	>1%
Water	7732-18-5	>2%

SECTION 4 : FIRST AID MEASURES

If medical advice is needed, have product container or label on hand.

Description of first aid measures**Emergency telephone number**

Poisons information centre, New Zealand: 0800 764 766

Eye Contact

Flush eyes thoroughly with water for several minutes. Remove contact lenses after the first 1 to 2 minutes and continue flushing for several additional minutes. Get medical attention if irritation persists.

www.agmax.co.nz

Ingestion

If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by a medical professional.

Symptoms

Aside from information provided in description of first aid measures above and in Section 11 no further information is available.

Note to physician

Treat symptomatically.

SECTION 5 : FIRE FIGHTING MEASURES**SUITABLE EXTINGUISHING MEDIA**

Water fog or fine spray, dry chemical or CO2 are suitable.

UNSUITABLE EXTINGUISHING MEDIA

Do not use direct water stream or high pressure jet as this may spread fire.

FIRE FIGHTING

Alert Fire Brigade and tell them location and nature of hazard.

Wear full body protective clothing with breathing apparatus.

Prevent spillage from entering drains or water course.

Cool fire exposed containers with water spray from a protected location.

HAZARDOUS COMBUSTION PRODUCTS

During a fire, smoke may contain the original material in addition to combustion products of varying composition, which may be toxic or irritating. Combustion products may include but are not limited to carbon monoxide and carbon dioxide.

FIRE/EXPLOSION HAZARD

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating.

ADVICE FOR FIREFIGHTERS

Standard procedure for chemical fires.

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

PERSONAL PROTECTIVE EQUIPMENT

Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6 : ACCIDENTAL RELEASE MEASURES**MINOR SPILLS**

Slippery when spilt.

Contain and clean up all spills immediately.

Contain and absorb spill with sand, earth, inert material or vermiculite.
Wipe up.
Place in a suitable labelled container for waste disposal.

MAJOR SPILLS

Slippery when spilt.
Prevent spillage from entering drains or water courses.
Stop leak if safe to do so.
Contain spill with sand, earth or vermiculite.
Collect recoverable product into labelled containers for recycling.
Absorb remaining product with sand, earth or vermiculite.
Wash area with plenty of water.

SECTION 7 : HANDLING AND STORAGE**PRECAUTIONS FOR SAFE HANDLING**

Product on surfaces can cause slippery conditions. Product shipped/handled hot can cause thermal burns.

STORAGE CONDITIONS

Keep container tightly closed in an upright position when not in use. Store at temperature between 15 and 35°C.

SHELF LIFE

Use within 24 Months

SECTION 8 : EXPOSURE CONTROLS & PERSONAL PROTECTION**EXPOSURE LIMITS**

No value is assigned for this specific material by the New Zealand Workplace Health and Safety Authority.

ENGINEERING CONTROLS

Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. There are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

EYE/FACE PROTECTION

Use safety glasses (with side shields).

SKIN PROTECTION

Chemical protective gloves should not be needed when handling this material. Consistent with general hygienic practice for any material, skin contact should be minimized.

OTHER PROTECTION

No precautions other than clean body-covering clothing should be needed.

RESPIRATORY PROTECTION

Under intended handling conditions, no respiratory protection should be needed.

SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES**APPEARANCE**

Viscous clear dark blue liquid and Slight sweet odour

PHYSICAL PROPERTIES

Completely soluble in water.

PROPERTY	VALUE
State:	Liquid
Melting Range (°C):	<7 Deg C
Boiling Range (°C):	Decomposes before boiling
Solubility in water (g/L):	Fully Miscible
pH (as supplied):	6.8 - 7.2
Specific Gravity (water=1, 20°C):	1.056
Flash Point (°C):	> 180 °C ASTM D 93

NOTE: The physical data presented above are typical values and should not be construed as a specification.

SECTION 10 : STABILITY AND REACTIVITY**REACTIVITY**

No data available

CHEMICAL STABILITY

Chemically stable at recommended temperatures and pressures.

POLYMERIZATION

Polymerization will not occur.

CONDITIONS TO AVOID

Ignition sources such as Heat, Flames and Sparks

INCOMPATIBLE MATERIALS

Oxidising agents and strong acids

HAZARDOUS DECOMPOSITION PRODUCTS

Carbon oxides

SECTION 11 : TOXOLOGICAL INFORMATION**ACUTE HEALTH EFFECTS****INFORMATION ON LIKELY ROUTES OF EXPOSURE****INGESTION**

May cause gastrointestinal discomfort if consumed in large amounts

EYE

May cause irritation

SKIN

May cause irritation

INHALED

May cause irritation

CHRONIC HEALTH EFFECTS

No data available.

TOXICITY AND IRRITATION DATA**ACUTE TOXICITY**

On the basis of principal ingredient

Oral LD50 >4000mg/kg(rat)- no deaths occurred at this concentration
>10000mg/kg(rabbit)

IRRITATION

No data Available

Sensitisation (respiratory/contact)

No data Available

Specific Target Organ Systemic Toxicity (Single Exposure)

No data Available

Specific Target Organ Systemic Toxicity (Repeated Exposure) For similar material(s)

No data Available

Carcinogenic effects

Not expected to be a Carcinogen

Mutagenic effects

Not expected to be mutagenic.

Reproductive or developmental effects

Not expected to cause adverse reproductive effects.

Aspiration hazard

No data Available

SECTION 12 : ECOLOGICAL INFORMATION**ECOTOXICITY****Acute toxicity to fish****For this family of materials**

Practically non toxic to aquatic organisms on an acute basis
(LC50/EC50/EL50/LL50>100mg/l in the most sensitive species tested)

Acute toxicity to aquatic invertebrates:

EC50, Daphniamagna, 48hr,>100mg/l

Persistence and degradability Biodegradability:

Material is readily biodegradable. Passes OECD test(s) for ready biodegradability.

For this family of materials: 10-day Window: Not applicable

Biodegradation: > 60 %

Exposure time: 28 d

Method: OECD Test Guideline 301F or Equivalent

Bioaccumulative potential

Bioaccumulation: No bioconcentration is expected because of the relatively high molecular weight (MW greater than 1000).

Mobility in Soil:

No relevant data found.

Results of PBT and vPvB assessment:

This substance has not been assessed for persistence, bioaccumulation and toxicity (PBT).

Other adverse effects

This substance is not on the Montreal Protocol list of substances that deplete the ozone layer.

SECTION 13 : DISPOSAL CONSIDERATIONS

Recycle wherever possible.

Consult local or regional waste management authority for disposal if no suitable treatment or disposal facility can be identified.

Dispose of by: Burial in a licensed land-fill or Incineration in a licensed apparatus (after admixture with suitable combustible material).

Empty contaminated packaging should be taken for local recycling, recovery or waste disposal.

SECTION 14 : TRANSPORT INFORMATION

UN No.	N/A
Dangerous Goods Class:	Not Classified as Dangerous Goods under NZS 5433
Packing group:	N/A
Proper Shipping Name:	Agmax Bloatstop
Segregation:	Don't store with D.G class 5, strong oxidizing agents.

SECTION 15 : REGULATORY INFORMATION

New Zealand .Inventory of Chemical substances

There is no requirement to list components of this product type on the New Zealand Inventory of Chemicals (NZIoC)

Group Standard:	Licensed Animal remedy
MPI:	MPI Approved for use in farm dairies
HSNO Controls:	
Approve handler test certificate:	<i>Not required</i>
Hazardous substance location:	<i>Not required</i>
Location Test certificate:	<i>Not required</i>

www.agmax.co.nz

Hazardous Atmosphere Zone:	Not required
Emergency Plan:	Not required
Tracking:	Not required
Warning Signs:	Not required

SECTION 16 : OTHER INFORMATION
