NOTES TO PHYSICIAN

Treat symptomatically.

SECTION 5 : FIRE FIGHTING MEASURES**EXTINGUISHING MEDIA**

In case of fire, use appropriate extinguishing media most suitable for surrounding fire conditions: water, water spray, dry powder, foam, carbon dioxide (CO₂).

HAZARDS FROM COMBUSTION PRODUCTS

Non-combustible liquid. Product is an aqueous solution and will not burn. Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

FIRE FIGHTING

Alert Fire Brigade and tell them location and nature of hazard.
Wear breathing apparatus plus protective gloves.
Use water delivered as a fine spray to control fire and cool adjacent area.
DO NOT approach containers suspected to be hot.
Cool fire exposed containers with water spray from a protected location.
If safe to do so, remove containers from path of fire.
Equipment should be thoroughly decontaminated after use.

FIRE/EXPLOSION HAZARD

Non-combustible liquid.
Combustion products include: carbon monoxide (CO), carbon dioxide (CO₂), other pyrolysis products typical of burning organic material.

FIRE INCOMPATIBILITY

Incompatible with strong oxidizing agents, alkaline solution, non-stainless metal and sources of ignition.

PERSONAL PROTECTIVE EQUIPMENT

Firefighters should wear protective firefighting clothing (including firefighting helmet, coat, trousers, boots and gloves). Clear fire area of all non-emergency personnel. Stay upwind.
Eliminate ignition sources. Mists containing combustible materials may be explosive.

SECTION 6 : ACCIDENTAL RELEASE MEASURES**MINOR SPILLS**

Clean up all spills immediately.

SAFETY DATA SHEET

AGMAX Titivate

When saturated, collect material into suitable, labelled, sealable, containers and hold for safe disposal.

MAJOR SPILLS

Clear area of personnel.

Control personal contact by using protective equipment.

Dam or dyke spilled material. Attempt to prevent spillage from entering drains, sewers or water courses.

Recover product wherever possible.

Soak up spilled product using absorbent non-combustible material such as sand or soil.

When saturated, collect material into suitable, labelled, sealable, containers and hold for safe disposal.

Wash spill area with plenty of water.

Personal Protective Equipment advice is contained in Section 8 of the SDS.
